

CLINICAL RESEARCH SITE MANAGEMENT ORGANIZATION

Clins Research Pvt. Ltd.

Advancing clinical research through excellence in site management. Supporting sponsors, CROs, investigators and hospitals across India.

Who we are

Founded in 2018 by Mr. Ravindra Singh and Ms. Beauty Saraswat, professionals with experience across national and international CROs, Clins Research has grown into a trusted Site Management Organization. In 2026 it was re-registered as Clins Research Private Limited, reflecting its growth and commitment to delivering comprehensive clinical research solutions on a larger scale.

We support studies across the full clinical trial lifecycle, from site identification and feasibility to regulatory and ethics committee support, patient recruitment, study coordination, quality assurance and study close-out.

Why choose Clins Research

Clinical Research Training & Certification

Clins Research Academy bridges the gap between academic knowledge and real-world clinical research. Because Clins Research is an active SMO, students learn from professionals involved in live clinical trials, with exposure to real site operations, regulatory documentation, ethics committee processes, monitoring activities and study management.

What you gain

- Industry experts
- Live hospital exposure
- SOP training
- Industry-recognized certificate
- Practical training
- Real clinical trial documents
- Internship certificate
- Placement assistance
